ABOUT US

We, as an organization are known for providing computer and vocational education in rural areas with economic costing through a strong network of centers in small villages and towns. We are providing education, which is required in every step of life, age and workplace. Our well-trained staff is ready to teach such a practical education, which needed to a student, housewife, and businessman; retire person, employee, self-employed, farmer, uneducated person etc. We are generating employment opportunities for trained and skilled people who do not have a formal school certificate. We are also running courses to empower unskilled women for their economic and social upliftment.

FOUNDER'S MESSAGE

"Doing nothing Is not an option in life and by contributing towards society, we can achieve a lot" The sole motive of starting this NGO was to contribute towards the betterment of society and to make it a better living place, where everyone can live fearlessly and with pride. It feels Important exposure to say that we are blessed with an efficient and dedicated team who help us in reaching our destination"

Dr. Anuj Sharma

CO-FOUNDER'S MESSAGE

"ADM society is like-minded organization looking to provide an opportunity for youth to make positive changes in society. We have faith in the power of collaboration. When students from different cultures and countries collaborate to contribute to a similar cause, everyone gets the opportunity to grow and equally, to exchange cultures. I believe in the power of unity the most."

Nitesh Kumar Sharma

"Our NGO conducted vital medical camps during the Covid period, providing essential healthcare services to communities in need. Additionally, we organized a massive one lakh tree plantation drive in Haryana, promoting environmental sustainability. Together, these efforts had a significant impact on public health and environmental conservation. Join us in our ongoing mission to make a difference in people's lives and protect our planet.

"In the future, our organization is committed to expanding our reach and impact through several key initiatives. We aim to provide eye treatment for individuals from economically disadvantaged backgrounds, ensuring that everyone has access to essential healthcare services regardless of their financial status.

Additionally, we plan to distribute sanitary pads to women in need, promoting menstrual hygiene and empowering women to lead healthy and dignified lives. Through this initiative, we hope to address a critical need in our communities and contribute to the overall well-being of women and girls.

Furthermore, we're dedicated to continuing our efforts in women's empowerment, with programs designed to provide education, skills training, and economic opportunities to women from marginalized backgrounds. By empowering women, we're not only transforming individual lives but also driving positive change in entire communities.

Together, these initiatives reflect our commitment to creating a more equitable and inclusive society, where everyone has the opportunity to thrive. We invite you to join us on this journey as we work towards building a brighter future for all.

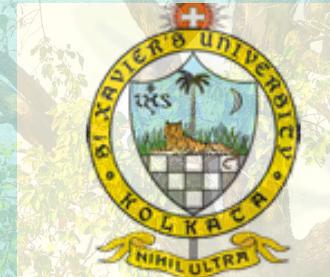

THE FUTURE VISION

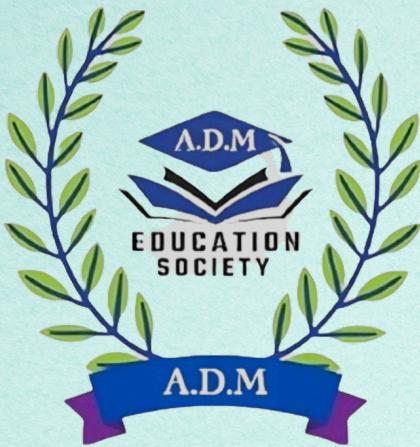

""Our mission is to empower communities through sustainable development initiatives that focus on healthcare, education, and women's empowerment. By leveraging partnerships, innovative solutions, and the dedication of our team, we strive to make a lasting impact on the lives of those in need, fostering a society built on equality, dignity, and opportunity."

"To create a world where every individual has access to essential healthcare, education, and economic opportunities, regardless of their socioeconomic status."
